

empower  sheets

The efficiency booster for Excel

Keep your templates up to date with little effort and quickly create professional tables and charts: **with empower[®] sheets** – available from Q3/2019

Easy. Uniform.
Efficient.

Your results and watch agree: this tool is worth it.

empower[®] sheets comes to action where Excel unnecessarily consumes a lot of time. Use the practical, centrally available templates and save time you would otherwise spend manipulating outdated versions. All changes to your templates are synchronized company-wide.

Tedious formatting are a thing of the past: empower[®] sheets provides uniform, corporate design-compliant tools for font, color, cell formatting, tables and charts. Every sheet is 100% brand compliant.

A further feature that makes empower[®] sheets such a powerful tool: its interconnection with PowerPoint. Simply copy or link your Excel charts in a PowerPoint slide.

Features:

- Central provision of Excel templates
- User library for managing and sharing your own templates
- Corporate design fonts and colors
- Corporate design compliant templates for charts, tables and cell formats
